Climate Change and Climate Crisis

Staying within Planetary Boundaries

Organisation: Christa Schleper, Franz Essl, Ayansina Ayanlade (University of Vienna)
Anna Ennsgraber, Hannah Geiser (Fridays 4 Future)

- | | |
|--|---|
| Oct 6, 2022 Franz Essl (UNIVIE) | Climate Change: A very short introduction |
| Oct 11, 2022 Johan Rockström (PIK) | A safe and just future within planetary boundaries |
| Oct 13, 2022 Gerhard Herndl (UNIVIE) | Towards a sustainable ecosystem service of the ocean |
| Oct 27, 2022 Rupert Seidl (TUM) | Forests under climate change: disturbance and resilience |
| Nov 3 2022 Matthias Schickhofer (supporting change) | European forests in times of climate change and biodiversity crisis |
| Nov 10, 2022 Ulrich Brand (UNIVIE) | Imperial and solidary mode of living. Why is it so difficult to act against the climate crisis – and which alternatives are possible? |
| Nov 17, 2022 Franz Essl (UNIVIE) | Climate change and biodiversity loss – two siamese twins |
| Nov 24, 2022 Halliki Kreinin (Münster) | Degrowth |
| Dec 15, 2022 Wolfram Weckwerth (UNIVIE) | Agroecosystems and sustainability – the next green revolution |
| Jan 12, 2023 Michaela Trippel (UNIVIE) | Socioeconomic sustainability transformations: system innovation and place-based policies in an era of climate crisis |
| Jan 13, 2023 Ibidun Adelekan (Ibidan) | Climate change impacts on formal and informal settlements in Africa |
| Jan 19, 2023 Katharina Bohnenberger (Duisburg-Essen) | Welfare states for future |
| Jan 20, 2023 Sabine Pahl (UNIVIE) | Psychology of climate change |
| Jan 26, 2023 Sabine Sebastian Öhner (KJA Wien) | Climate change and intergenerational justice |
| Jan 26, 2023 Moderation: Elisabeth Nemeth (UNIVIE) | Panel discussion |
