

CURRICULUM VITAE

Personal information

Name: Silvia Bulgheresi
Working address: University of Vienna
Department of Functional and Evolutionary Ecology Environmental Cell Biology group
Djerassiplatz 1, 1030 Wien
Tel: +43-1-4277-76514
Email address: silvia.bulgheresi@univie.ac.at
Website: <http://archaea.univie.ac.at/research/silvia-bulgheresi-lab/>
ORCID: <https://orcid.org/0000-0002-1441-7152>
Google scholar: <https://scholar.google.at/citations?user=zDiytb4AAAAJ&hl=en>

Professional Experience

Since 2020 Associate Professor in Environmental Cell Biology, Department of Functional and Evolutionary Ecology, University of Vienna

2018 – 2020 Assistant Professor, tenure track Environmental Cell Biology, Department of Functional and Evolutionary Ecology, University of Vienna

2015 – 2019 2015 – 2019 Habilitated University Assistant and Independent PI at the Department of Ecogenomics & Systems Biology, University of Vienna

2013 – 2019 University Assistant and independent PI at the Department of Ecogenomics & Systems Biology, University of Vienna

2011 – 2013 Independent PI at the Laboratories of Genome Dynamics, Medical University of Vienna. Project title: Ectosymbioses of marine nematodes

2010 – 2011 Independent PI at the Department of Ecogenomics & Systems Biology (former Department of Genetics in Ecology), University of Vienna. Project title: Ectosymbioses of marine nematodes

2010 Three-month long research stay at the laboratory of Prof. S. Patricia Stock, Department of Entomology, University of Arizona, Tucson (US)

2008 – 2010 Austrian Research Promotion Agency (FFG) postdoctoral fellow at the Department of Marine Biology, University of Vienna. Project title: Immunomodulatory action of a marine lectin

2005 – 2006 Two three-month long research stays at the laboratory of Prof. R. M. Maizels, Institute of Immunology and Infection Research, University of Edinburgh (UK)

December 2006 – March 2007 Maternity leave

2005 – 2008 Austrian Science Fund (FWF) postdoctoral fellow at the Department of Marine Biology, University of Vienna. Project title: A stilbonematid EST project

May – December 2005 Maternity leave

2003 Three month-long research stay at the laboratory of Prof. Richard M. Maizels, Institute of Immunology and Infection Research, University of Edinburgh (UK)

2002 – 2004 FWF postdoctoral fellow at the Department of Marine Biology, University of Vienna. Project title: Molecular mechanisms of partner recognition and association maintenance in marine ectosymbioses.

Degrees

16/12/2014

Venia Docendi (“Lehrbefugnis”) in the fields of **Molecular & Cellular Biology** at the Faculty of Life Sciences, University of Vienna, AT. Thesis title: *Faithful, ingenious and most useful: marine nematode and flatworm symbioses*

15/12/2000	PhD in Genetics and Molecular Cell Biology at the Faculty of Life Sciences, University of Vienna. Thesis title: Mechanisms of asymmetric cell division in <i>D. melanogaster</i> neuroblasts: the two-hybrid screen approach. Subject: Developmental Cell Biology; Supervisor: J.A. Knoblich, Research Institute of Molecular Pathology (I.M.P.), Vienna, AT
23/07/1996	Graduated <i>cum laude</i> in Biological Sciences (Molecular Biology & Biochemistry) at the Faculty of Mathematics, Physics and Natural Sciences, Biological Sciences, University of Pisa. Thesis title: <i>Role of the XLFB3 gene in the early development of the frog X. laevis</i> . Subject: Developmental Biology; Supervisor: G. Barsacchi, Department of Physiology and Biochemistry, University of Pisa, IT

Honours, awards and fellowships

2024	Elected EMBO member
2014	Emerging Field <i>Cell biology of microorganisms in their natural environment</i> (University of Vienna, 15 kEUR)
2006 – 2007	Discovery Grant Antiviral activity of His-Mermaid, PIs J. Ott & S. Bulgheresi (University of Vienna, 100 kEUR)
2010 – 2013	Ministry of Economy and Finance (BMWF) mobility grant for scientific-technical cooperation with the Institute of Marine Biology, Kotor (ME) PI S. Bulgheresi, 5 kEUR
2010	National Science Foundation (NSF) exchange visit grant to perform collaborative research in S.P. Stock's Lab (3 months), PI S. Bulgheresi, 5 kUSD

Selected invited talks

2025	EMBO/FEBS Advanced course The New Microbiology, Spetses (GR)
2024	EMBO BacNet 24 Conference, Sant Feliu de Guíxols (ES)
2024	GRC <i>Plant & Microbial Cytoskeleton</i> , Andover (US)
2023	Lorentz workshop <i>Chromosome organization in Prokaryotes</i> , Leiden (NL)
2023	EMBL Symposium <i>The organism and its environment</i> , Heidelberg (DE)
2023	GRC <i>Bacterial Cell Biology and Development</i> , New London (US)
2022	Royal Dutch Society for Microbiology annual meeting, Papendal (NL) (keynote speaker)
2019	The Great Wall Symposium, Paris (FR) (keynote speaker)
2019	EMBO Workshop on <i>Bacterial cell division</i> , Lund (SE)
2018	GRC <i>Microbial Stress Response</i> , South Hadley (US)
2017	ASM General Meeting, Symposium on <i>Diversity in Cell Division Mechanisms</i> , New Orleans (US)
2017	ASM General Meeting, Symposium on <i>Diversity in Cell Division Mechanisms</i> , New Orleans (US)
2016	GRC <i>Plant & Microbial Cytoskeleton</i> , Andover (US)
2016	American Society of Microbiology (ASM) General Meeting, Boston (US)(plenary speaker)
2015	GRC <i>Animal-Microbe Symbiosis</i> , Waterville Valley Resort (US)
2014	Royal Netherlands Academy of Arts and Sciences Colloquium: <i>50 years Fts: the A-Z of bacterial cell division</i> , Amsterdam (NL)
2012	GRC <i>Bacterial Cell Surfaces</i> , Mount Snow Resort, West Dover (US)

Research Grants

2024 – 2028	Austrian Science Fund (FWF) doc.funds Genome instability. Speaker C. Campbell, PI S. Bulgheresi, 200 kEUR
2019 – 2024	FWF doc.funds MAINTAIN Microbial symbioses in dynamic

	environments: Metabolic interplay and novel interactions. Speaker M. Horn, PI S. Bulgheresi, 200 kEUR
2018 – 2020	ÖAW DOC Fellowship for MS Philipp Weber, PI S. Bulgheresi, 77k EUR
2016 – 2019	FWF DK+ Doctoral School Microbial nitrogen cycling. Speaker C. Schleper, PI S. Bulgheresi, 200 kEUR
2016 – 2019	FWF Stand-alone Project Animal host control of symbiotic bacteria, PI S. Bulgheresi, 300 kEUR
2015 – 2018	FWF Stand-alone Project Growth and septation of animal-attached bacteria, PI S. Bulgheresi, 300 kEUR
2010 – 2013	FWF Stand-alone Project Marine nematode ectosymbioses, PI S. Bulgheresi, 400 kEUR

Esteem factors

Co-organizer of the European Nematode Society (ESN) meeting 2010

Editor for: ASM Spectrum, Frontiers in Microbiology

Reviewer activity for the following scientific journals: The Biological Bulletin, Current Biology, Ecology Letters, Environmental Microbiology, Environmental Microbiology Reports, mBio, mSystems, PLoS One, Proceedings of the National Academy of Sciences (PNAS), The ISME Journal

Reviewer activity for the following research funding agencies: Agence Nationale de la Recherche (ANS, France), National Science Foundation (NSF, US), National Foundation for Science Higher Education and Technological Development of the Republic of Croatia (NZZ, HR), Czech Republic Funding agency (GAČR, CZ)

Past and current cooperation partners (in chronological order)

Richard M. Maizels (University of Edinburgh, UK)

Mark Blaxter (University of Edinburgh, UK)

Johnatan Ewbank (Centre d' Immunologie de Marseille-Luminy, FR) **Tie**

Chen (Hubei University of Science and Technology, CN) **Nemani V.**

Prasadarao (Los Angeles Children's Hospital, US) **Teunis Geijtenbeek**
(University of Amsterdam, NL)

Tanneke den Blaauwen (University of Amsterdam, NL)

Paul Sternberg (Caltech, US)

S. Patricia Stock (University of Arizona, US)

Lawrence Rothfield (University of Connecticut Health Center, US)

Piet de Boer (Case Western Reserve University, US)

Yves Brun (University of Montreal, CA)

Cees Dekker (TU Delft, NL)

Felipe Cava (Umea University, SE)

Simonetta Gribaldo (Institut Pasteur, FR) **Stephanie**

Markert (University of Greifswald, DE) **Raymond Lee**

(Washington State University, US) **Michael Wagner**

(University of Vienna, AT)

Thomas Pradeu (CNRS & University of Bordeaux, FR)

Damien Devos (University of Sevilla, ES) **Michael**

Wagner (University of Vienna, AT) **David Berry**

(University of Vienna, AT) **Frederic Veyrier** (INRSA

Laval, Québec, CA)

FULL LIST OF PUBLICATIONS

Peer reviewed publications 2226 total citations, 20 h-index (Google Scholar);

* indicates equally contributing authors

1. **Bulgheresi S.**, Kleiner E., Knoblich J.A. Inscuteable dependent apical localization of the microtubule-binding protein Cornetto suggests a role in asymmetric cell division. 2001. **Journal of Cell Science**. 114:3655-62.
2. Ott J.A., Bright M., **Bulgheresi, S.** Marine Microbial Thiotrophic Ectosymbioses. 2004. **Oceanography & Marine Biology, an Annual Review** 42:95-118.
3. Ott J.A., Bright M., **Bulgheresi S.** Symbioses between marine nematodes and sulfur-oxidizing chemoautotrophic bacteria. 2004. **Symbiosis** 36:103-126.
4. **Bulgheresi S.**, Schabussova I., Chen T., Mullin N. P., Maizels R. M., Ott J.A. A new C-type lectin similar to the human immunoreceptor DC-SIGN mediates symbiont acquisition by a marine nematode. 2006. **Applied and Environmental Microbiology**. 72:2950-2956.
 - First report of the functional role of a conserved, key innate immune effector in microbial symbiosis maintenance
5. Zhang P., Snyder S., Feng P., Azadi P., Zhang S., **Bulgheresi S.**, Sanderson K., He J.J., Klena J.D., Chen T. Role of N-Acetylglucosamine within Core Lipopolysaccharide of Several Species of Gram-negative Bacteria in Targeting the DC-SIGN (CD209). 2006. **Journal of Immunology**. 177(6):4002-4011.
6. Zhang P., Skurnik M., Zhang S., Schwartz O., Kalyanasundaram R., **Bulgheresi S.**, He J.J., Klena J.D., B. Hinnebusch J., Chen T. Human DC-SIGN (CD209) is a receptor for Yersinia pestis that promotes phagocytosis by dendritic cells. 2008. **Infection and Immunity**. 76(5):2070-9.
7. Nabatov A.A., de Jong M.A.W.P., de Witte L., **Bulgheresi S.***, Geijtenbeek T.H.B.* C-type lectin Mermaid inhibits dendritic cell mediated HIV-1 transmission to CD4+ T cell. 2008. **Virology**. 378(2):323-8.
8. Bayer C., Heindl R.N., Rinke C., Lücker S., Ott, J.A., **Bulgheresi S.** Molecular characterization of the symbionts associated with marine nematodes of the genus *Robbea*. 2009. **Environmental Microbiology Rep**. 1(2):136-144.
9. Mittal R., **Bulgheresi S.**, Emami C., Prasadrao N.V. *Enterobacter sakazakii* targets DC-SIGN to induce immunosuppressive responses in dendritic cells by modulating MAP kinases. 2009. **Journal of Immunology**. 183(10):6588-99.
10. Bright M., **Bulgheresi S.** Microbial symbiont transmission. 2010. **Nature Reviews Microbiology**. 8(3):218-30.
 - Overview of the molecular mechanisms that mediate symbiont attraction and accumulation, inter-partner recognition and selection, as well as symbiont confrontation with the host immune system
11. **Bulgheresi S.**, Gruber-Vodicka H.R., Heindl N.R., Dirks U., Kostadinova M., Breiteneder H., Ott J.A. Sequence variability of the pattern recognition receptor Mermaid

mediates specificity of marine nematode symbioses. 2011. **The ISME Journal**. 5(6):986-98.

12. Heindl N.R., Gruber-Vodicka H.R., Bayer C., Luecker S., Ott J.A., **Bulgheresi S.** First detection of thiotrophic symbiont phylotypes in the pelagic environment. 2011. **FEMS Microbiology Ecology**. 77(1):223-7.

13. Gruber-Vodicka H., Dirks U., Leisch N., Baranyi C., Stoecker K., **Bulgheresi S.**, Niels R. Heindl, Horn M., Lott C., Loy A., Wagner M., Ott J.A. *Paracatenula*: an ancient symbiosis between Thiotrophic *Alphaproteobacteria* and catenulid flatworms. 2011. **Proceedings of the National Academy of Sciences US**. 108(29):12078-83.

Books

Bulgheresi S. Brave genomes, microbial genome plasticity in the face of environmental change, 1st Edition, Elsevier/Academic Press (available from January 2025).
<https://www.amazon.com/Brave-Genomes-Environmental-Biochemistry-Biotechnology/dp/0443187894>

Book Chapters

Bulgheresi S. Microbial symbiont transmission: basic principles and dark sides. 2011. In *Beneficial Microorganisms in Multicellular Life Forms*, E. Rosenberg/U. Gophna (eds), Springer-Verlag, p.299-311.

Ott J.A., **Bulgheresi S.** et al. Chemosynthetic symbioses in meiofauna (in preparation) In *Meiofauna as a link between the micro- and macroworld*, O. Giere/J.A. Ott (eds), Springer-Verlag (in preparation).

Scientific book review

Bulgheresi S. I, microbe. 2016. *Nature Microbiology*. 1(8):16117.

Patents

Universität Wien: **Bulgheresi S.**, Ott J. Pharmaceutical preparation for the prevention of infections. WO2007109821 (2007) 34 pages

ACADEMIC TEACHING AND SUPERVISION Teaching activity at the University of Vienna

For Bachelor students

Practical course: *Extremophilic and Thiotrophic Microorganisms from Volcanic Environments*

Lecture series: *Microbial genome plasticity*

For Master and PhD students

Practical courses:

Molecular Microbiology, Microbial Ecology and Immunobiology Marine Microbial Symbioses (2016-2017)

Seminars:

Symbiosis - Concepts and Model Systems

*Advanced topics in Molecular Biology and Physiology of Bacteria and Archaea Literature
seminars on Biodiversity and Ecosystems*

Lectures:

*Molecular mechanisms of Symbiosis Symbiosis -
Concepts and Model Systems I Symbiosis - Concepts
and Model Systems II Biology and Evolution of Archaea
Environmental Cell Biology*

Teaching activity outside the University of Vienna

Ad hoc invited lecturer for the **ERC Training Network BluePharmTrain** Workshop, Tallinn (EE), October 2015, 8 hr total. Host: D. Sipkema, Wageningen University, NL

Ad hoc Invited lecturer at **Immunoconcept - immunology from concept and experiments to translation**, University of Bordeaux (FR), March 2017. Host: T. Pradeu, University of Bordeaux (FR)
